- Continuous rotations – When your team has finished competing, rotate to your next event immediately. We need your help to keep the meet moving smoothly. THANK YOU!
- Squad Order – Stay in your squad order to allow enough rest time for the team competing at the end of the rotation.
- Squad Split – If your squad is 8 or less, do not split for warm up.
- Athlete Order – Put your athletes in any order within your team. Take your athlete score cards from event to event and arrange them in competition order.

- Bar Settings – “Bar settings are NOT included in warm up time; however, if a club or group of athletes chooses to block time, the clock will not stop within the block time.”
- **B Flight – Start your timed warm up when the A flight begins competing or when the event coordinator lets you know it is time to start.**
